

COMMENTS FROM YOUNG ATHLETES

Paul -

Thanks again for all your work with Stuart. He's happy to be back in the game and is doing great. His soccer team just won in the Oregon State quarter-finals and they are playing this weekend in the semi-finals (against Medford). They are hoping to go all the way.

Stuart is not only grateful for your help in getting him healed and well, but now he's also interested in the field of Physical Therapy. He learned a lot from you!

Nancy Morrice
(Stuart - age 16)

After battling a hamstring injury and missing a majority of the track season, Paul Kane's treatment allowed me to compete once again!

James Shim
Age 17

Over the course of many years I've come to Paul Kane for therapy on multiple different sport injuries. Every time I receive treatment from Paul, I am impressed with his high level of knowledge and professionalism. As an athlete himself, Paul is able to use his firsthand experience from sports injuries to effectively treat his patients. Paul's experience becomes especially apparent through his demeanor. With every injury I have come to him with, he has always impressed me with the swiftness and certainty of his diagnosis. Not only are his diagnostic skills commendable, but the fashion in which he goes about creating and helping to execute proper therapy is also impressive. Not only do I trust Paul Kane with all my sports injuries, but I would, and do, recommend him to anyone in need of a knowledgeable (and fun to be around) Physical Therapist.
